

## CPD – What is going to happen at the end of the year?

This is a gentle reminder for those participants enrolled in Cycle 14 of the AIR CPD program that the cycle will conclude on 31st December 2007. You now have less than three months to get your CPD credits organised and lodged on the AIR CPD database.

### Validated Statements of Accreditation

Throughout December the AIR will begin to send renewed Validated Statements of Accreditation by post to those participants enrolled in Cycle 14, or those persons who have been notified by the AIR that their CPD cycle will conclude on 31st December 2007, who have lodged their required minimum CPD credits. It is therefore imperative that you ensure that your contact details on the membership database are up to date. All members

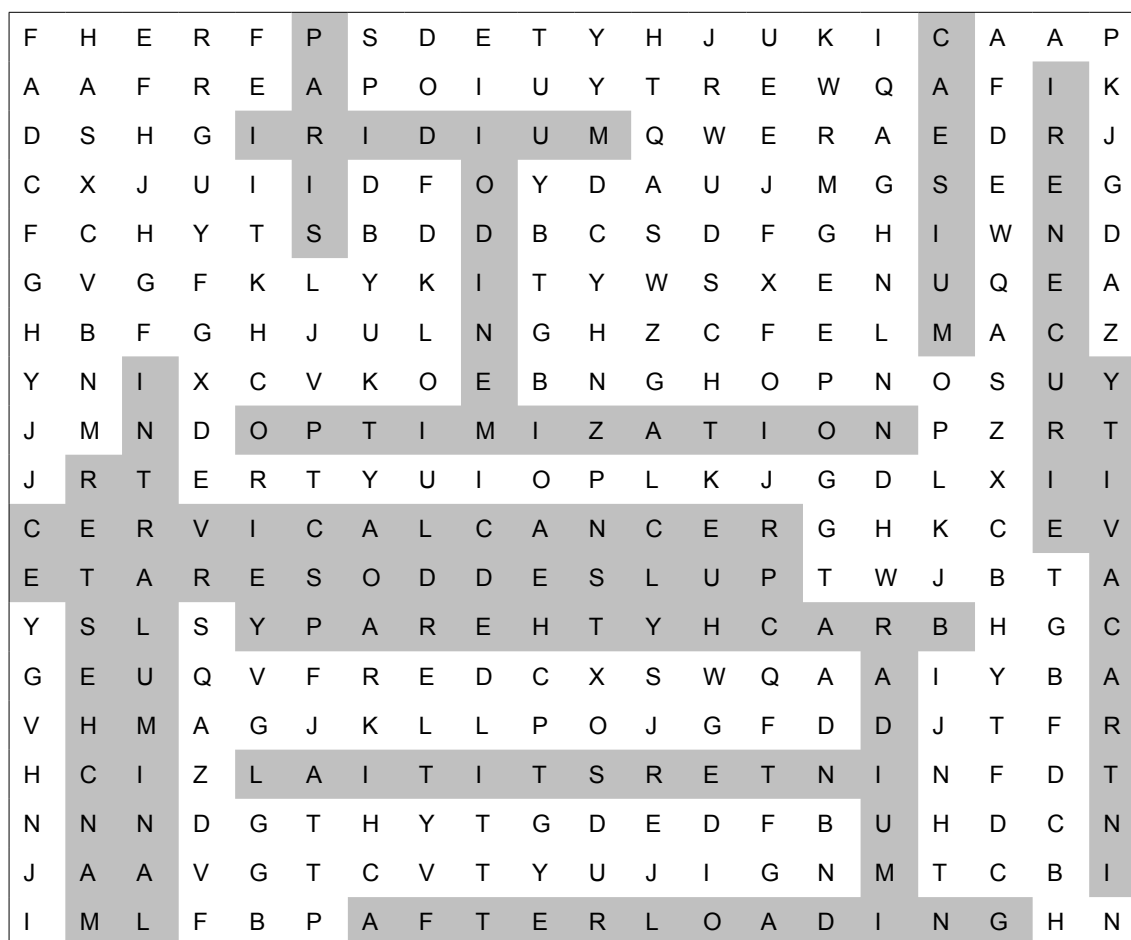

of the AIR can now update their contact details via the website.

### CPD audit

The AIR conducts an audit of 10% of participants who successfully complete the CPD program, at the conclusion of each cycle. Information regarding the CPD audit process can be found on page 23 of the new *Guide to the AIR CPD Program*.

Those participants enrolled in cycle 14 who are selected for audit will be notified by post within two weeks of the conclusion of the CPD cycle. They will be required to forward supporting evidence of their CPD claims to the AIR within one month of notification. If you have any questions regarding the audit process please don't hesitate to contact Lori McLeod, POEDS email cpd@air.asn.au.

## Brachytherapy word find solutions – September issue
